Sri Sainath English Medium High School SSC(10 th); GPA: 9.3	2019

SKILLS SUMMARY

- **Skills:** UI/UX Design with wire framing, prototyping, UI development and UX research.
- **Platforms:** Figma, Canva, Picsart, Photoshop
- **Soft Skills:** Active participation in Team Membership, People Management, Good communication

PROJECTS

Tesla clown website page design

- Designed visually appealing Tesla-themed website in Figma, incorporating brand guidelines and UI/UX best practices.
- Contains three different colours of cars red, black and blue with different themes of model y.
- Used user friendly and creative animations and transitions to change from one element to the other.
- Designed for Desktop screens to look fully functional and visually appealing.

Nike clown website page design

- Incorporate Nike's signature orange, black, and white colors, with bold, bright accents to evoke a clownish feel. Managed the code using the Arduino IDE software.
- Incorporated creative transitions of the same model Air Jordan 4 RM women's wear.
- Ensure a seamless, responsive design that adapts to the Desktop screens.

Movie ticket Booking app and Hotel rooms Booking app UI designs

- Used Figma software's prototyping tools to create seamless transitions between screens allowing you to visualize and test the user journey effectively.
- Designed for mobile screens to ensure the app is fully functional and visually appealing.
- Prioritize an intuitive, easy-to-navigate layout with clear categories like movie listings, rooms, flights and cars showtimes, and booking options, ensuring users can book tickets and hotel rooms effortlessly.

Netflix app alternate design for mobile screens

- Used a bold, dark background with accents of red, white, and gray to evoke a cinematic feel.
- Used card-based design to showcase individual titles, including images, titles, and brief descriptions.
- Allow users to create profiles, including selecting preferred and account settings.

CERTIFICATES

- Figma Bootcamp completion certificate from LetsUpgrade
- Introduction to cloud by cognitiveclass.ai powered by IBM developer skills network
- Introduction to career skills in software by Microsoft and linkedin
